

Prompting Guide

How to get perfect answers from the Bible Counselor — web only, no setup

The agent is **deeply smart** — it auto-detects your intent and never muddles modes. Use the formulas below for precise results.
Every answer is **KJV 1769** with Wikisource provenance + strategic insight. • **242 stories** • **145 verses** • **Auto/Stories/Verses modes** • **Best Strategic Plan synthesis**

Quick Reference — Web App

Your Goal	Best Prompt Formula	What You Get
Get Bible verses on a topic	[N] verses about [TOPIC] e.g. <i>10 verses about diligence</i> <i>5 verses that talk about fear</i>	Exactly N KJV verses + Wikisource URL + per-verse insight + summary <i>145 indexed</i>
Get an inspirational story for your situation	I am [emotion/situation] like [character], what should I do? e.g. <i>cave season, betrayed like David at Adullam</i>	1–3 archetypal stories + KJV text + strategy + Best Plan <i>242 scenarios</i>
Get a strategic plan	Best biblical strategic plan for [SITUATION] e.g. <i>best plan for rebuilding from ruins</i>	Synthesized steps from relevant stories

1 Verse Mode — “Give me N verses about X”

Use when you want direct scriptures on any topic. The agent searches the **full KJV verse index** (**145 curated verses** across 50+ topics, every verse with Wikisource provenance).

Formula

[N] verses [about / on / for / that talk about] [TOPIC] — N = 1–20 (default 5 if you omit). Topic can be any word: *fear, diligence, love, honesty, background checks, forgiveness, stewardship, strength in weakness.*

Best Prompts (copy-paste into the web prompt box)

- “10 verses about diligence”
- “5 verses that talk about fear”
- “10 verses to justify background checks”
- “7 verses about wisdom”
- “What does the bible say about anxiety?”
- “List 10 bible verses that talk about honest scales”

What you get

An ordered list of exactly N KJV 1769 verses — each with verbatim text, citation (e.g. *Proverbs 14:15 (KJV 1769)*), Wikisource URL ([https://en.wikisource.org/wiki/Bible_\(King_James\)/Proverbs#14:15](https://en.wikisource.org/wiki/Bible_(King_James)/Proverbs#14:15)), per-verse **Strategic Insight**, plus an overall **Strategic Summary**. All citations verify at the canonical source.

Example Output (abridged)

[1] Proverbs 14:15 (KJV 1769) — https://en.wikisource.org/wiki/Bible_(King_James)/Proverbs#14:15 “ <i>The simple believeth every word: but the prudent man looketh well to his going.</i> ” Insight: Due diligence — Verify before trusting; diligence is biblical stewardship.
--

2 Story Mode — “I am in situation X, how did Bible characters handle it?”

Use when you want inspirational stories and a strategic plan from characters who walked the same path. The agent has **242 archetypal stories** (Adullam, Joseph, Esther, Nehemiah, Jeroboam’s altar 1 Kings 13, etc.) with KJV 1769 provenance.

Formula

I am [emotion / situation] like [optional character], what should I do?
Add emotion + context. Longer = smarter matching (the agent reads tags: *exile, betrayal, diligence, debt, burnout, barrenness, underdog, rebuilding, midnight praise, trapped, forgiveness, etc.*).

Best Prompts (copy-paste)

- “I am in a cave season, betrayed and hiding like David at Adullam, gathering broken men”
- “Falsely accused and forgotten in prison like Joseph, how to handle workplace injustice”
- “Need courage to speak up to my boss like Esther, afraid”
- “Burnout after victory like Elijah under juniper tree”

- “In debt with creditors, only a little oil left like the widow of 2 Kings 4”
- “God sent a prophet to confront Jeroboam at Bethel, altar rent, hand withered — I need to confront false worship”

What you get

1–3 matched stories: Title, character, KJV verbatim text + citation URL, narrative summary, what they did, outcome, cross-references, **strategy.name + steps**, plus a synthesized **Best Biblical Strategic Plan** for your query.

3 Strategic Plan — Direct

Add this line to any story prompt, or ask standalone:

- What is the best biblical strategic plan for rebuilding from ruins?
- Give me the Adullam strategy for starting with broken people
- Provide the Joseph Protocol for false accusation

The agent synthesizes all matched strategies into a sequential plan — shown as ★★★ **Best Biblical Strategic Plan**.

Pro Tips for Best Results on the Web

- **Be specific with topic:** “10 verses about financial stewardship” > “verses about money” — precision improves ranking.
- **Always include count for verses:** Say **5** or **10**. Omitting count defaults to 5.
- **For stories, tell your story:** “I am short, shamed but seeking like Zacchaeus” beats “Zacchaeus” alone. Agent reads emotion + tags.
- **Use mode toggle:** Leave on **Auto** (detects) or force **Stories / Verses** if you want to lock the mode.
- **Try the gallery:** Below the prompt box, filter 242 scenarios (fear, diligence, debt...) and click any card to auto-prompt — no typing needed.
- **Verify provenance:** Every citation is clickable: *Bible_(King_James)/BOOK#chapter:verse* on Wikisource. Canonical: *The_Holy_Bible_(King_James_Version,_1769)*.
- **No muddling:** Verse prompts never return stories; story prompts never return random verses. Modes are strictly separated.

Verse Topics Covered (145 verses, 50+ topics)

Ask anything — all mapped with KJV provenance + strategic insight:

- | | | |
|---|---------------------------------------|--------------------------------|
| • diligence / background checks / vetting / proving | • wisdom | • fear / anxiety |
| • courage | • honesty / integrity / just weight | • faith / trust |
| • perseverance / waiting | • love / charity | • forgiveness |
| • leadership / service | • money / stewardship / counting cost | • healing / health |
| • prayer | • strength / weakness / thorn | • guidance / lamp |
| • temptation / way of escape | • humility / pride | • grief / loss / broken heart |
| • work / heartily / diligent business | • peace / perfect peace | • hope / expected end |
| • protection / refuge | • adoption / fatherless | • exile / seek peace of city |
| • wages / hire not withheld | • church conflict / preeminence | • last-minute grace / paradise |
| • doubt in prison | • financial folly / covetousness | • cleansing / prejudice |
| • generational faith | | |

How to Use the Web App — Only Interaction Needed

You interact with the Bible Counselor **only via the web page** — no CLI, no API keys, no local setup. The site is a static web app (hosted on Render, CDN, never sleeps).

1. **Open the site** — your deployed URL (e.g. <https://your-bible-counselor.onrender.com>) — on phone or desktop.
2. **Choose a mode** at the top of the prompt box: ■ **Auto** (recommended — auto-detects), ■ **Stories** (force story matching), or ■ **Verses** (force verse search). The tip box below the toggle updates live.
3. **Type your prompt** in the large box. Use the formulas above. Press **Seek Counsel** (or **Enter**). Shift+Enter for newline. Max 600 characters.
4. **Read the result** — stories show KJV text + Wikisource link + actions + outcome + strategy steps + **Best Strategic Plan**; verses show exact count + insight per verse + summary. Every citation is verifiable.
5. **Try the gallery** — scroll to **Explore All 242 Biblical Scenarios**, filter by keyword (e.g. *fear*, *debt*, *diligence*), sort A→Z / By Book, or Shuffle. Click any card to auto-fill the prompt and seek counsel.
6. **Example buttons** under the prompt box pre-fill common prompts — one click to try Verse Mode, Story Mode, or background-checks.

No installation, no terminal, no token. Just the web page and the Prompting Guide. For questions, email sirp4all@gmail.com.

Provenance Pledge

Every verse is KJV 1769 verbatim. Verify at [https://en.wikisource.org/wiki/The_Holy_Bible_\(King_James_Version,_1769\)](https://en.wikisource.org/wiki/The_Holy_Bible_(King_James_Version,_1769)) and per-verse URL [https://en.wikisource.org/wiki/Bible_\(King_James\)/BOOK#chapter:verse](https://en.wikisource.org/wiki/Bible_(King_James)/BOOK#chapter:verse). The agent never invents verses. All citations are generated by **src/provenance.js** and **data/verses.js**.
